Professional expériences

Computer Engineering Intern | **LIRIS INSA**

Juin 2026 / Septembre 2026

Point clouds, **Python**, **LiDAR**, **Raytracing**.

Lyon

Networks and Information Systems Intern | **Sonatrach**

Janvier 2024 / Février 2024

Database management system (**SGBD**), Network administration.

Oran

Computer Lab Setup and Maintenance Intern | **CEDI Systems**

Janvier 2024

Network installation, software installation, technical and network maintenance.

Oran

Network Rack Deployment and Configuration Intern | **CEDI Systems**

Septembre 2023

Network administration, technical and network maintenance, server architecture.

Oran

Education

Master's Degree M2 Video Game Engineering **GAMAGORA**

Septembre 2025 / Septembre 2026

Lyon 2 Lumière University

Lyon

Game engines (**Unreal**, **Unity**, **Godot**), **AI** for video games, **Geometric** modeling / virtual worlds, **3D** image synthesis, Real-time synthesis / shading.

Master's Degree M2 Networks and Informations Systems

2024

Oran 1 University

Oran

Final Year Thesis : [Intelligent Profiling System in Urology](#).

Project developed using **Python**, **PHP**, **Apache**.

Bachelor's Degree in Computer Systems

2022

Oran 1 University

Oran

Final Year Thesis: [Employee Attendance System Using QR Code](#).

Project developed using **Dart** (Application mobile Android).

SKILLS

Programming :

Unreal , Unreal Engine 5 , Godot , Unity , GDScript , Blueprints , C , C++ , C# , Git , Visual Studio Code , Visual Studio , Pycharm , Python , Java , POO , Dart , Javascript, PHP , HTML , CSS , Dart , Flutter , IHM.

Database :

SQL , UML , NoSQL , Database, Data Analysis, Business Intelligence, Advanced Database.

Network :

Routing Protocols, Switching & Routing , CISCO , CCNA , Systèmes Client Server , Equipement cisco.

• **Certification CCNA1 v7** • **Certification CCNA2 v7**
• **Certification CCNA3 v7**

Machine Learning :

Machine Learning , IA , Supervised Learning , Unsupervised Learning , Gradient Boosting Machines , GBM , LightGBM , KNN , Random Forest , Naive Bayes, Support Vector Machines.

Automatisme :

Factory IO , Tia Portal , MATLAB , MATLAB Simulink

Personal Projects

- **Grandma's home** A multiplayer game developed in 4 months with a multidisciplinary team, using the engine **Unity (C#)**.
- **MistyVR** Virtual reality (**VR**) game developed with **Unreal Engine**, created by our team during a game jam, and designed for the **Meta Quest 3**.
- **Lucidicium Finale** Project created in **Godot** for the second edition of Gamagora's internal Game Jam.

Languages

French : **DALF C1**

English : - [English for IT 1](#) 2024 – 2025

- [EF SET 2024](#)
